

NOTICE OF CHANGE

DEFERRED – Elimination of bags as a containerization option for *Addressed Admail™ and Publications Mail™* deferred to January 16, 2012

In order to provide *Addressed Admail™* and *Publications Mail™* customers with additional time to transition from bags to alternative containers, Canada Post has deferred these deadlines by one year as follows:

- Canada Post will no longer **supply bags** to *Addressed Admail* and *Publications Mail* customers effective December 31, 2011; and
- Canada Post will **no longer accept** mailings for *Addressed Admail* and *Publications Mail* inducted in bags effective January 16, 2012

In preparation for these changes, we encourage you to begin transitioning from bags to more efficient containerization alternatives such as Canada Post free reusable plastic pallets customer-supplied cardboard boxes, or Canada Post hard-sided containers.

Details on containerization options and benefits are available by viewing the Mail Preparation and Presortation Guides at canadapost.ca/mailpreparation.
