

Canada Post Delivery service alerts

Updated information on mail delivery interruptions

Wednesday, January 3, 2024 – 1 pm ET

We issue Delivery service alerts when delivery of the mail may not be possible because of conditions. These conditions can be weather-related or disasters, fires, floods, major accidents, etc. An alert can be issued for a particular community or an entire province.

Red alert: We are suspending delivery and not sending our delivery agents out or we are recalling them.

Yellow alert: We are going to do our best to deliver, but there may be delays.

Delivery will resume once conditions improve and it's safe to do so. The safety of our employees is our number one priority.

Closures and Service Interruptions: Learn about upcoming outages to our website and specific online tools that are affected as well as major weather events and holiday closures that impact mail delivery in your community.

Archives – Service alerts from November 2, 2021 to December 31, 2022 ([access](#)); January 1, 2023 to June 30, 2023 ([access](#))

Date	Alert	Weather condition or delivery interruption	Location(s)	Delivery resumed or alert change
